PROFILE

I believe that it is an exciting time in software development for making positive impact. I am a problem solver with a creative mind, always curious to learn more and driven to find meaningful solutions. With a background in environmental research and analysis I am excited to apply my technical skills in software and data with my interest to create robust, sustainable solutions.

SKILLS

JavaScript, REST APIs, React JS, WebGL, React Three Fiber, TypeScript, Node.js, MySQL, HTML, CSS, Sass, Express, GitHub, Agile Development, User Authentication, OAuth.

Python, R, SQL, Data Analysis, Data Visualisation

Geographical Data Visualisation, QGIS, ArcGIS Pro Google Earth Engine (Remote Sensing)

Adobe Photoshop & InDesign

LANGUAGES

Spanish – Proficient/Fluent
Arabic (Levantine) - Elementary

INTERESTS

Salsa Dancing
Reading
Piano

PROJECTS

Lead Coder | LocalLingo, SpaceFlight, Portfolio Page (and more)

JULY 2024, BRAINSTATION CAPSTONE

- Designed and created web applications in React, R3F and Express, including translation, blog and chat features, authentication and a simple 3D game using WebGL in React Three Fiber.

Lead Coder | 2nd place Lego Hackathon

MAY 2024, BRAINSTATION HACKATHON

- Collaborated with data scientists and UX designers to create an effective digital solution to improve Lego's gift finder. This was made possible with strong communication, time management, creativity, and enthusiasm.

EDUCATION

BrainStation | Diploma, Software Engineering

APR 2024 - JULY 2024, London, UK

King's College London | Bachelors in Geography and Environmental Science with Spatial Data Science

SEPT 2019 - JULY 2023, London, UK

- Awarded 2.1, modules focused on climate change, environmental dynamics in the Anthropocene and geographical data analysis and monitoring
- Awarded 1st in dissertation on applications of satellite remote sensing to identify temporal change and quantify blue carbon storage in the British Isles

MPW | A Levels in Mathematics (B), Spanish (B) & Economics (B)

SEPT 2018 - JULY 2019, London, UK (completed in one year)

IED Madrid | Post Graduate Diploma, Fashion & Lifestyle Photography

OCT 2016 - JULY 2017, Madrid, Spain

University of Barcelona | C2 Diploma in Spanish and Hispanic Studies

SEPT 2015 - JUNE 2016, Barcelona, Spain

EXPERIENCE

Data Scientist Consultant | Marine Stewardship Council

JAN 2024 - present, London, UK

- Led research project "Evaluating patterns of geospatial fishery operation areas and conditions of MSC certification", performing geospatial data analysis in python to better understand how to support client success in the program
- Created and managed spatial databases and implemented a more efficient system to better manage and access data

Fashion Photographer | Freelance

JULY 2017 - SEPT 2018, Madrid, Spain

- Delivered high quality images for clients' fashion editorials and magazine features, edited to professional standards.
- Communicated with clients from concept through to the end of project.
